4 Luxury Self-Contained Apartments

- Where quality meets comfort
- Designed for modern living

In partnership with:

Background

This development transformed an existing property in South Gloucestershire into four luxury self-contained apartments, combining extensive renovation with the construction of two new-build apartments. Designed with quality, comfort and modern living in mind, the development features high-quality finishes, carefully considered layouts and modern specifications to create stylish, practical homes.

Designed for
modern living

Bathrooms & Wet Rooms

- Luxury bathrooms and shower rooms.
- Selected apartments include both bath and shower.
- Contemporary fittings and integrated storage.
- En-suite bathrooms available.

Kitchen

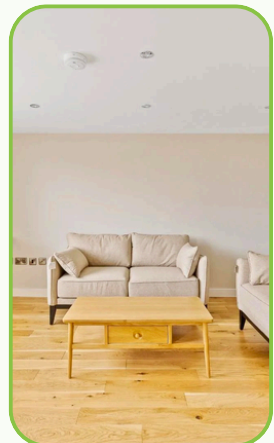

- High-quality fitted kitchens.
- Stone worktops throughout.
- A-rated integrated appliances.
- Oak flooring and flush LED lighting.

Development Approach

The development involved converting the existing property and constructing two new-build apartments from scratch. The conversion included an enlarged loft with a double dormer, creating a luxury bedroom with an en-suite bathroom/shower room, bespoke fitted wardrobes and floating oak bedside tables, a feature recreated in the new builds.

All four apartments feature state-of-the-art integrated electrical systems, energy-efficiency features and Cat 5 cabling with pre-installed fibre-optic capacity. The design also incorporates touch-sensitive mood lighting, double Velux windows to the front aspect for increased natural light, and integrated blackout blinds.

The kitchens feature stone worktops, while the properties with allocated parking also benefit from electric vehicle charging points. All four apartments came with 10-year build and defects warranties as standard.

Working in Partnership

Through collaboration with clients, partners and specialist contractors, we deliver high-quality property developments tailored to each project's requirements, with a focus on quality, practicality and long-term value.
