Large Detached Property for a Single Tenant

- Supporting independence
- Creating a home for life

In partnership with:

Background

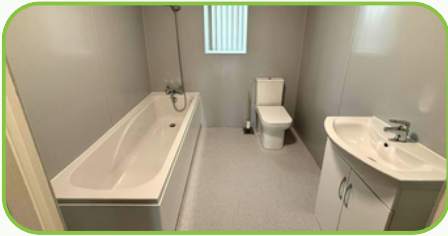

At the request of the local authority and care provider, we adapted a property to create a suitable home for a tenant whose needs had outgrown their previous supported living accommodation. The aim was to provide a safe, accessible environment that supports independent living while allowing appropriate care and support to be delivered.

Supporting
independence

Creating a
home for life

Bathrooms & Wet Rooms

- Bespoke wet room with a bath & shower
- Robust, tenant-specific fixtures and fittings.
- Low-noise ventilation with automatic moisture detection.

Kitchen

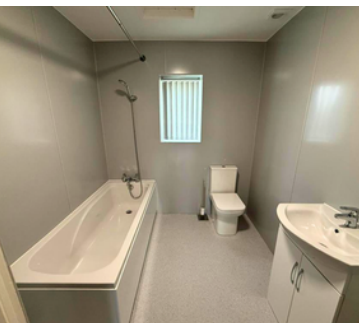

- Handleless kitchen cabinetry.
- Magnetic locking system.
- Secure staff-controlled access.

Development Approach

The property underwent a comprehensive refurbishment, with new facilities and adaptations throughout to meet the tenant's needs. Works included creating an accessible layout suitable for wheelchair use, dedicated care provider space and landscaped front and rear gardens designed for accessibility.

The kitchen and bathroom facilities were adapted to support safe, practical everyday use, alongside the wider improvements required to deliver a suitable supported living home. The completed property provides a comfortable, accessible environment tailored to the tenant, with space for care staff to provide support.

Working in Partnership

Through strong partnerships with local authorities, commissioners and support providers, we deliver high-quality homes designed to meet individual needs, support independence and provide safe, comfortable living environments.
